

EU-Project "From Isolation to Inclusion (i2i)"

09/2005 – 09/2007

Initiator

European Commission, 2nd Transnational Exchange Programme

Objectives

Our work focuses on the identification and improvement of measures that will enable groups at a multi-dimensional risk of social exclusion to fully participate in community life.

Implementation

Six European countries participate in the project. In each country a government and an external consultancy organisation co-operate at regional level.

Each region elaborates a "Regional Action Plan for For Inclusion and ReIntegration of older People". Furthermore, based on the partner's experience, „Guidelines for Action“ are worked out.
